

STRUT-MATE® MOUNTING KIT

Every new strut deserves a Strut-Mate® Mounting Kit.

Monroe Strut-Mate Mounting Kits are designed to reduce noise and vibration and should be utilized when replacing conventional struts or springs. In addition, our full line will provide you with late model original equipment coverage, as well as complementing the ride control characteristics of Monroe struts.

- ✓ Direct-fit replacement mounts
- ✓ Fit-checked and road tested
- ✓ Utilizes Clevite® engineering in rubber technology for enhanced metal-to-rubber bonding
- ✓ Available for 98% of total Monroe strut coverage
