

DORMAN ABS MODULES

ADVANCED SOLUTIONS WITH MORE RELIABLE AVAILABILITY.

Whenever you need to replace an ABS module, Dorman has the best of both worlds: reliable remanufactured solutions that restore performance for lower cost, and brand new modules with upgraded electronics for greater durability than original equipment.

FASTER AND MORE DURABLE

Assembled in USA – both our new and remanufactured modules are assembled in our state-of-the-art facility in the United States

Improved components – thicker PCBs and upgraded electronics improve durability and provide superior stopping performance

Thoroughly validated – all modules undergo certification to Federal Motor Vehicle Safety Standards FMVSS135 7.6 for faster stopping performance

Limited lifetime warranty
